

# ROUND MANHOLE COVER

# B125

Hydraulic Seal

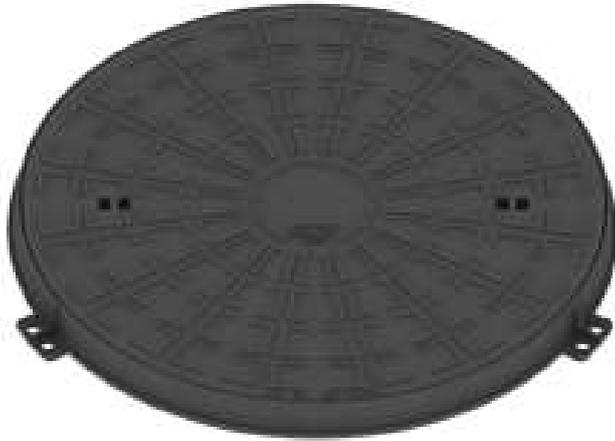

Custom Markings

## DESCRIPTION

The round cover B125 is produced in spheroidal graphite cast iron (EN-GJS-500-7) according to EN 1563. This is a standard device for B125 class, Group 2 of EN 124-2:2015. It is suitable for use on sidewalks, pedestrian areas, comparable areas, car parks for light vehicles, among others.

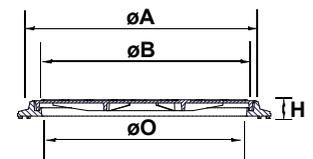

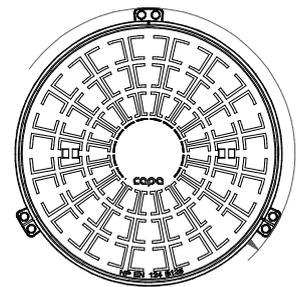

With hydraulic frame section to prevent the passage of odors

The round cover is fitted with 2 handles to lift it and is designed for cobblestone filling or equivalent. It is also black painting for corrosion protection.
